

Every transaction has an impact.

ecolytiq at a glance

The Sustainability-as-a-Service[®] solution from ecolytiq enables banks and other financial services providers to show their customers the individual impact their purchasing behaviour is having on the environment in real time. ecolytiq was founded by entrepreneurs with more than 50 years of experience in payment, banking, loyalty and scalable data analytics systems. We are a fast-growing company of 50 passionate, hardworking, and diverse employees. In November 2020, ecolytiq joined the Visa Fintech Partner Connect program, enabling banks to seamlessly implement their sustainability strategies using payment data.
