

Business Banking & Deposits

With Mambu, banks, financial institutions, and non-financial institutions are equipped with the technology to build and launch fully configurable business banking and deposits products that are tailored to the evolving needs of SMEs and merchants. **Business Banking Accounts** (also known as current or chequing / checking accounts) are the daily transactional banking accounts for business use with optional debit card and overdraft support. **Business Deposit Accounts** are interest accruing savings accounts and term deposits for business use.

Who

Traditional Banks (incl. Global and Regional banks), and Neobanks / Digital Banks

Why

Traditional banks and neobanks looking for a dynamic product core, and a connected ecosystem of third-party vendors to offer transactional and savings products for personal use.

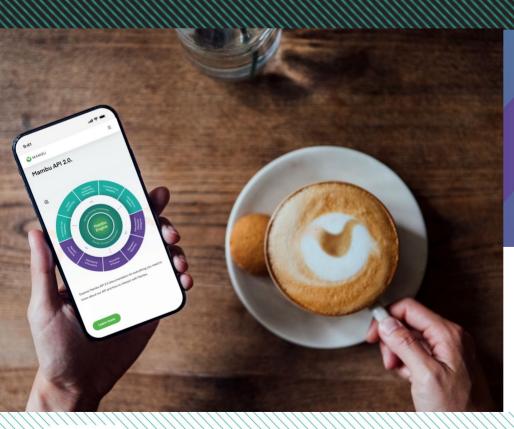

What

Transactional banking and deposit-based savings accounts for business use.

How

Configure products via APIs or UI. Low-code / no-code products, processes, and data configuration.

With over 30,000 pre-built product configurations, Mambu gives you the tools to build a variety of transactional banking and deposit-based solutions to meet your strategic goals and delight your SME and business customers.

Endless possibilities

Mambu makes Business Banking and Deposits easy.

Flexible overdraft

Streamline the processing of technical and arranged overdrafts, offer complete support for calculating interest rates, and set maximum overdraft limits and overdraft interest as necessary.

Flexible savings

Simplify the management of savings plans and maturity periods with support of both positive and negative interest rate calculations, fixed, indexed, and tier-based banding, tax withholding, and the enforcement of maximum account balance definitions.

Customised reports

Multiple custom reporting and dashboard options to ensure that all key operational and performance metrics can be measured and tracked.

Modernise your transactional banking and savings portfolio.

Powered by our composable approach and open APIs, you can create products with ease. Use low code / no code configuration and straight through processing to connect your entire ecosystem, reduce operational effort, and free up teams to focus on what's important - creating the best banking experience for your SME and business customers.

Note: 1 - Also known as a cheque or checking account
